

# Spay a Stray and Let Them Stay

Please consider spaying or neutering the stray cat that has chosen your home as their safe haven, and allowing them to become part of your family by providing them with food, water, protection and love.

The McKamey Animal Care and Adoption Center's "Spay a Stray and Let Them Stay" program will spay/neuter, test for feline leukemia, vaccinate, deworm and ear tip your stray or feral cat for \$25. Financial assistance may be available for those who cannot afford this modest fee. Traps are available for a \$50 refundable deposit. If you do not need this service, but are touched by the plight of homeless cats and kittens, please consider donating \$25 or more to the program and help someone else Spay a Stray and Let Them Stay.

To qualify for this program you must reside within the city limits of Chattanooga, fill out an application and agree to continue to care for the cats. Once your application is processed, you will be given an appointed time to bring your cat(s). For more information, please call and leave a voicemail at 423-305-6500 or email at [feralcat@mckameyanimalcenter.org](mailto:feralcat@mckameyanimalcenter.org).

"Will you help me?"
