

Grooming Services

All grooming services include a bath, nail trim, ear cleaning and brush out. Please let us know in advance if you think your cat will need to be sedated. We are very patient and gentle, but not every cat will tolerate grooming. If your cat is extremely resistant, we feel sedation is less stressful to the cat than forceful restraint.

Lion Cut

Our most popular cut, a lion cut is shaving a cat with a #10 blade leaving the mane, feet and tip of tail. You may specify a long or short mane. We only do lion cuts on long haired cats.

Trim

We will make your cat's coat neater by trimming it to your specifications. All trims include a sanitary cut, brush out and de-matting if necessary. If a cat is severely matted, the mats may need to be shaved off.

Addition services include:

- De-matting
- De-shedding
- Sanitary Clip
- Bath
